Subject: Capacity of new electronic monitoring system

QUESTION

What will be the capacity of the Northern Territory Government's new electronic monitoring system?

ANSWER

The contract caters for up to 1,000 individuals, adults and young people to be monitored at any one time. Since Territory Families, housing and communities assumed the responsibility of electronic monitoring of young people there has not been more than 50 young people subject to electronic monitoring at any one time, which might give the Member for Mulka some comfort. It is not a huge amount but we have capacity for 1,000.
