

**LEGISLATIVE ASSEMBLY OF THE NORTHERN TERRITORY**

**WRITTEN QUESTION**

Ms Purick to Minister for Essential Services

**Water Distribution and Storage in Litchfield Council Area**

1. How many kilometres of reticulated water are in the rural area within the borders of the Litchfield Council.
  2. Which roads have reticulated water.
  3. How many kilometres have “spaghetti” lines delivering water.
  4. Which are the roads that have spaghetti lines delivering water.
  5. What is the current cost per kilometre to deliver water in the rural area.
  6. What work has been undertaken to develop further reticulated water in the rural area and what roads have been identified for conversion from bore water to reticulated water.
  7. If no work has been undertaken to identified roads that could be converted to town water” why not.
  8. What plans are in place to construct and develop water storage facilities to support the proposed development of Weddell.
  9. Has land been identified for proposed water storage facilities and if so, what exact location by locality area, road and block identification.
  10. If a private property has been identified for a water storage water facility, has compensation been negotiated and if so how much and to which property owners.
  11. Has the Government undertaken any work on the future water infrastructure requirement for the rural area within the Litchfield Council boundaries? If so, when can a report be expected and if not, why not.
