

LEGISLATIVE ASSEMBLY OF THE NORTHERN TERRITORY

WRITTEN QUESTION

Mrs Lambley to the Treasurer:

Power and Water Corporation Gas Supply Contracts

- 1. From 1 August 2023 to 1 February 2024, how much gas did Power and Water Corporation source through its emergency contracts with INPEX to supply gas for power generation in the Northern Territory?**

Approximately 0.7 petajoules.

- 2. From 1 August 2023 to 1 February 2024, how much gas did Power and Water Corporation source through its emergency contracts with Santos to supply gas for power generation in the Northern Territory?**

Power and Water does not have an emergency contract with Santos. Power and Water has a gas supply agreement with the DLNG Joint Venturers.

- 3. What price is Power and Water Corporation paying to INPEX and Santos respectively for this gas, per petajoule?**

Due to the commercial sensitivity of the information, Power and Water is unable to provide detail on the pricing of those arrangements.

- 4. How much in total did Power and Water Corporation pay to INPEX and Santos respectively for this gas?**

Due to the commercial sensitivity of the information, Power and Water is unable to provide detail on the pricing of those arrangements.

- 5. From 1 August 2023 to 1 February 2024, how much gas did Power and Water Corporation source from Eni's Blacktip project?**

Approximately 6.2 petajoules.

- 6. From 1 August 2023 to 1 February 2024, how much gas did Power and Water Corporation source from gas from Central Australia?**

Approximately 3.9 petajoules.

- 7. What price is Power and Water Corporation paying to ENI for gas from Blacktip, per petajoule?**

Due to the commercial sensitivity of the information, Power and Water is unable to provide detail on the pricing of those arrangements.

- 8. How much in total did Power and Water Corporation pay to ENI for this gas?**

Due to the commercial sensitivity of the information, Power and Water is unable to provide detail on the pricing of those arrangements.

- 9. Does Power and Water Corporation have any replacement contracts for the supply of gas (a) already signed, or (b) under negotiation?**

(a) Yes (b) No

- 10. If yes, with whom and at what cost per gigajoule?**

Power and Water has gas supply arrangements in place:

1. for supply from the Dingo and Mereenie fields in Central Australia;
2. for supply from the DLNG Joint Venturers, with Santos as the operator; and
3. for emergency supply from INPEX from the Ichthys LNG Pty Ltd facility in Darwin.

Due to the commercial sensitivity of the information, Power and Water is unable to provide detail on the pricing or volumes of those arrangements.
