To: Hon Natasha Fyles MLA

Portfolio: Minister for Health

Agency: Department of Health

Subject: Number of code yellows across the Northern Territory hospital system

QUESTION:

How many code yellows have there been across the Northern Territory hospital system so far this financial year?

ANSWER:

RDH had one code yellow that was publically addressed in February 2021.

Gove District hospital has had 14 incidences for the reporting period, all relating to IT and power outages, which technically qualify for a code yellow but are not related to patient capacity.

All other hospitals have not had a code yellow.
