Subject: Progress Reports on Projects

From: Mr Michael Gunner to Hon Adam Giles
Chief Minister

Question: **3-3**
Can we please get a progress report on a number of projects. The projects include to develop and coordinate, implement a whole-of-government policy issues targeting improved social participation; provide strategic policy advice on current and emerging social policy issues at the local and national level; undertake research to inform an evidence based understanding of social policy and related matters before Cabinet; and how we are going tackling the issues putting these projects in doubt around staffing arrangements, mix and availability?
