**Question:** How many people within Fisheries possess qualifications that are specific to fisheries management, and I do not mean personnel with general science degrees or other generic qualifications?

**Answer:**

---

- *There are 24 staff members within Fisheries that hold specific fisheries or aquaculture qualifications.*
- *While some research functions may require specific skills in fish biology or stock assessment, a wide range of skills are required for fisheries management including economics, social sciences, statistics, natural resource management and technical skills. A further 25 fisheries staff have such qualifications.*
- *All qualifications held by fisheries personnel are specified in the attached table.*
