Question:

Minister, could you please say whether the Howard Springs

Community Advisory Committee is still in existence? And if it is not,

why not?

Answer:

The Howard Springs Nature Park Local Management Committee was set up to assist with developments in the Howard Spring Nature Park and the preparation of the new Plan of Management. The Committee was only ever to have a life span of 3 years and be reviewed at the end of this term. The Committee all agreed that once the rock pools, playground and Plan of Management had been finalised, there was no need to keep the Committee running. All parties agreed that emails to Committee members would be sent if new events were happening.
