Answered On: 19/07/2012

ESTIMATES COMMITTEE

Question Taken on Notice

Date: 19 June 2012
Output: Environment and Heritage
Sub Output: Environment and Sustainability

Subject: Cash for Containers

From: Minister Hampton To: Member for Brennan

Department: Natural Resources, Environment, the Arts and Sport

Number: 7.13

Question: **Has the Federal Government, any Federal Government department, or other NT Government departments apart from NRETAS, any council, or any other organisation paid any money or assistance in-kind towards this scheme in any way, shape, or form?**

Answer:

No funding has been provided to NRETAS from other governments, departments, councils or organisations.

The Northern Territory Cash for Containers is an industry run scheme. NRETAS is the regulator and overseer of the legislation. NRETAS has received support and advice from the Environment Protection Authority in South Australia in developing and drafting the legislation.

A number of representatives from other NT Government agencies have been involved, where relevant, in providing advice and support during the implementation and scheme development phase.
