

**LEGISLATIVE ASSEMBLY OF THE NORTHERN TERRITORY**

**WRITTEN QUESTION**

Mrs Finocchiaro to the Minister for Education:

**Hearing Health Information Management System (HHIMS) -  
Replacement**

1. What is the Government replacing the HHIMS system with?
2. Will the new system have the same level of function as HHIMS?
3. Does the new system include information from Aboriginal Controlled Health services?
4. How will the replacement system increase support to Aboriginal children in remote communities?
5. Just as HHIMS was to be linked with a program called 'iHearing', will the replacement system have an ancillary system with the Education Department to ensure teachers have real time information on the hearing health of students in their classrooms?
