

LEGISLATIVE ASSEMBLY OF THE NORTHERN TERRITORY

No. 59

WRITTEN QUESTION

K McNamara to the Minister for Essential Services, Hon Steve Edgington MLA:

Greater Darwin's Water Supply

- 1. Power & Water Corporation last provided a detailed breakdown of usage statistics for Greater Darwin's water supply in 2013. Can the public expect updated usage statistics with a breakdown of how Darwin's water is used, and if so, when?**

Power and Water Corporation is undertaking an update of the Darwin Region Water Supply Strategy, which is expected to be published in late 2025.

Information on Darwin's water supply, demand and sustainability is available on Power and Water's website: powerwater.com.au/about/what-we-do/water-supply.

The breakdown of consumption for 2023/24 is as follows:

Customer Type	Consumption (ML)	Consumption (%)
Residential	20,413	45.1
Commercial and Industrial	7,890	17.4
Government	9,636	21.3
Non-revenue water	6,878	15.2
Power and Water	404	0.9
TOTAL	45,221	100
