Hi

I am a permanent resident of the NT. My husband and I are health professionals who plan to remain living in the NT in our post work lives. We are both very concerned about climate change and its effect on the world and the NT's livability. I am very concerned about fracking in the NT and hope that our elected representatives are and will in the future, follow the highest standard of transparent consultation to assess any fracking proposals.

I am very concerned that the powers outlined for the proposed Minister for Territory Coordination allow the Minister to override the essential consultation process and time required for decisions that will affect Territorians now and future generations.

Thank you for considering my concerns.

Ann Connelly.
