Please give urge urgent consideration to the warming climate and the increasingly urgent need to provide power through sustainable renewable energy sources, and not fossil fuels.

Please do not interfere with Commonwealth laws, or the Sacred Sites Act, Native Title Act, Heritage Act or Aboriginal Land Act.

Please also ensure that all water resources including the complex systems of aquifers as well as above ground water are not polluted or wasted on inappropriate projects.

Please also ensure that land clearing is kept to a minimum and does not impact on important native flora and fauna.

Yours sincerely  
Mandy Webb
