Subject: Clarification of premium FIT or network peak

QUESTION

Is the work around the premium FIT now called the network peak or can we please get the clarification of the name?

ANSWER

The Electricity Pricing Order gazetted on 30 June 2025 refers to the increased Feed-In-Tariff during Peak as the "Peak Feed in Tariff Discount".

Jacana Energy refers to this as Super FiT which is a doubling of the standard solar Feed-in Tariff discount for rooftop solar exported to the grid during the period 3pm to 9pm which is the consumption peak period.
