Question Taken on Notice

Question Number: 9.1

Output Number: Opening Statement

Date: 18/06/2025

From: Mr Chansey Paech

To: Hon Joshua Burgoyne

Portfolio: Lands, Planning and Environment

Agency: Lands, Planning and Environment

Subject: NT Cattlemen's Association emission reduction funding KPIs

QUESTION:

You spoke about providing funding to the NT Cattlemen's Association in relation to reducing emissions. Can you provide what those KPIs are?

ANSWER:

The objectives of the funded activity are to engage with cattle industry members to constructively and collaboratively identify and progress initiatives that provide industry with opportunities to engage with emerging carbon and biodiversity regulatory settings and market opportunities in line with Territory and Federal Government policy programs, and to report back to Government on the effectiveness and uptake of these approaches.

The performance indicators are:

1. the provision of an annual report detailing extent of activities conducted towards achieving the objectives;
2. the number of constructive and collaborative consultations and communications with members achieved each year; and
3. information pertaining to industry-based outcomes as per the project deliverables.
