Subject: Status of Commonwealth Defence transmission licences

QUESTION:

Please advise the status and the legality of two Commonwealth Defence transmission licences that are across the Kowandi land? What is the status of them and what discussions have the Commonwealth Government and the NT Government had in regard to those licences and their future?

ANSWER:

The Department of Defence has communicated to the Territory advising that while it does have some assets on Section 5623, it is not the owner of the site and the Department of Finance manages the site for the Commonwealth.
