Subject: Police attendance at hospitals this year

QUESTION

How many times have police been called to attend each hospital this year, broken down by each hospital.

ANSWER:

NT Police, Fire and Emergency Services advise that due to the way that the data is captured in the police PROMIS system, it is very difficult to retrospectively confirm how many times police have been called to attend each hospital. The data obtained through running variations of reports is unreliable, noting that police could be in attendance at the hospital for either an incident at the location or a follow up with a victim/offender.
