QUESTION

The Department of Infrastructure, Planning and Logistics is constructing drainage works at the headworks at Mitchell Creek. These drainage works area associated with the Holtze hospital. Has the EPA inspected these works to see if they are detrimental to Mitchell Creek?

ESTIMATES COMMITTEE – ANNUAL REPORTS
Answer to Question Taken on Notice

Question Number: 9-5

Date: 30/11/2017

From: Mr Terry Mills

To: Hon. Lauren Moss

Portfolio: Environment & Natural Resources

Agency: Environment & Natural Resources

Subject: Inspection of drainage works at Mitchell Creek

Answer

This was the Palmerston hospital site. There have been three inspections this year at the site, which was a general inspection and then specifically on erosion and sediment control measures that took place in February, August and November 2017.
